

"Computers for Rural People" from The Arthur Rank Centre

http://www.arthurrankcentre.org.uk/projects/computers_for_rural_people/

If you live in a rural area, whether on a farm miles from anywhere, or even in a country town, you have to spend travelling about to get things done. That is in addition to commuting of course.

Email and Internet provide enormous opportunities when you can't just pop round the corner to the shop or library etc.

Yet computers are usually expensive items, and few people want to buy one "just to see if one day it might be useful".

Once you have one, and know how to use it, and appreciate what it can do, you don't mind paying, but that first step is often inhibited by the cost.

The Arthur Rank Centre is committed to supporting the rural community, and has set up the "Computers for Rural People" scheme to provide computers at very low cost to encourage people to take the first step.

So

- If you are retired or approaching retirement, and have seen how your own computer could enrich your life
- If you are a really busy person, and find that organising things by telephone and letter are just too slow
- If you have children at school, and want them to be able to keep up with their work

We can help you. At a really low price we can provide a computer of your own, pre-loaded with Microsoft software, and delivered to your door, to get you started.

The Arthur Rank Centre has made an arrangement with the global charity Oasis, to supply re-furbished computers at charity prices. We ask that you make a voluntary donation of £12 minimum to the ARC.

Get in touch to see if we can supply what you need at a price you can easily afford.

If you already have access to a Computer and the Internet, you can order directly from the Oasis Website; go to:-

<http://www.oasiscfc.org>

and click the "Purchase Computers" Tab.

The screenshot shows the Oasis Computers for Charity website. The header includes the Oasis logo and navigation tabs: Home, About Us, Donate Computers, Purchase Computers, Make a Donation, and Contact Details. The main content area is titled "Purchase at charity rate" and features a sidebar with links: "Purchase at charity rate", "Purchase for you (charity)", "Apply for free computers", and "Charitable items". The main text explains the charity rate and includes a disclaimer about the organization's charitable status. A featured product is a desktop computer with a Pentium 4 or Celeron processor, priced from £109. Below this are three options: Option A (SUGGET COMPUTER) for £109, Option B (WITH TFT MONITOR) for £159, and Option C (TFT - WIRELESS) for £179. Each option includes a "Buy Now" button and a "Select Quantity" dropdown. The footer mentions payment methods (VISA, Mastercard, American Express, MSA Electron) and a security processing partner (Paycom).

(The screen that you get may be up-dated from this one)

We can now offer Lap-tops as well. They have a similar specification (except for the obvious differences) and they cost £190.

Let us know if you would like one.

If you do order directly, please remember to send your voluntary donation of £12 (or more if you can) to The Arthur Rank Centre.

Thank you.
